Scouting The Shops

with Sally

All the merchants are flying flags this week and we don't blame them—we'd fly a flag, too, if we had bargains like that.

When we told the Editor about it, he just looked disgusted and said "It's Flag Week, Sally, Flag Week. Don't you ever read the papers?"

Anyway, we still think the flags are a good idea. It makes us feel like singing the Star-Spangled Banner just to think of fresh apple turn-overs at Pisa Market. Or the free bags of groceries at Westlake Market on Saturday (specials on mushroom gravy, too). Or fresh strawberries from the Daly City Cut Rate Market.

"Don't you ever think of anything but food?" waited the Editor. "It isn't food that makes people patriotic."

Hmmm. We wonder. Never do we feel more patriotic than when we have just finished a nice thick steak from Farmer's Market and a heaping dish of Real ice-cream, topped off with chocolate sauce and a piece of coconut cake from Geneva Bakery.

Besides, we do too think of other things besides eating. Going to the Beach for instance. Sun goggles and sun-burn lotion at special prices at Edwards Drug Store. Clothes cleaned and pressed inexpensively at Beeson Cleaners.

Or dinner at the Hilltop Lodge for instance, and dancing, with a late show at the Daly City theatre afterwards. And flowers from Daly City Nursery.

Or even working, such as house-cleaning—that is, when we can send our rugs to New Process Laundry to be cleaned in a trice. We do admit, though, that working doesn't make us feel as patriotic as other things. We usually end up playing ping-pong in the basement—see the H. H. Smith ad on page 6.

Still, we were talking about patriotism, not ping-pong. Never does patriotism burn more brightly than over a plate of ham and eggs from Robertson's Egg Store (Continued on Page 6)

Doubles in Mirrors
The balcony of the Forum restaurant, which opened recently in Chicago, is designed as half a room, but diners feel that they are in a whole room twice as large. The room is "completed" by reflection from a huge plate glass mirror which covers one wall. The lighting fixture is a half-circle of plate glass, also "completed" by the mirror.

Aviation Employment Up
As the result of sharp increases in both foreign and domestic airplane orders, California's aviation industry is employing 60 per cent more men than a year ago.

Apple Pie for Rubinfo
Mrs. Oliver Johnson of Helena, Mont., recalled that what Violinist Rubinfo particularly liked when she was a vocalist with his orchestra was apple pie. So when Mrs. Johnson greeted Rubinfo in Helena recently she carried with her a thick, juicy apple pie. "Wonderful, wonderful," said the violinist.

Napoleon's Burial Place
Napoleon III is buried at Farnborough, England. Previously, he was buried in St. Mary's mortuary chapel, Chislehurst, England, where he died, but in 1897 the Empress Eugenie caused to be built St. Michael's Roman Catholic church, in the crypt of which were buried the emperor, the prince imperial and the empress.

Francis Bacon's Hobby
Francis Bacon, the essayist, spent his spare time devising new styles in men's clothes. He made 1,200 drawings of freakish raiment and had tailors make some of them up. When no friends of his would wear any of the wild and giddy costumes, he hired men to put them on and promenade the London streets.

Native Daughters To Give Whist

El Carmelo Parlor No. 181, Native Daughters of the Golden West, extends a cordial invitation to the public to attend a whist party next Wednesday evening, June 19, in Masonic hall.

Playing will begin at 8:30 p. m. There will be a large cash prize and many other practical awards.

The following committee, under the leadership of President Pauline Quirolo, is working earnestly to make the affair a success:

Margaret Steele, Lucille Allison, Mary Callan, Edna Petersen, Dorothy Garibaldi, Lucy Fahey, Pauline Parmisano, Callista Davis, Leona Falk, Lillian Crawford, Jennie Tilton, Marie Arata, Eleanor McDonald, Rose Romiguere, Pauline Attinger, Betty Foley, Romilda Grondona, Flora Foppiano, Ethel Cotal, Elsie Clemens, Katherine Bocci, Teresa Langford, Rose Sweeney, Louise Grondona, Alice Volkman, Louise Eliassen, Anita Dagliantoni, Evelyn Bemis, Nora Adams, Anna Lagomarsino and Margaret M. Steele.

SUNDAY DINNER Suggestions

WHAT goes into your market basket as you shop has a decided bearing on the health of your family, doctors are discovering. For in the foods you select, there are frequently health-giving properties as important as the asparagus tea you once drank for a spring tonic. Asparagus is soothing to the nerves, and is excellent for the liver, and carrots aid in the cure of skin diseases, doctors recently announced. It is said gray hair can be checked by eating liver, rice, bran, as well as a number of vegetables. Barley improves the blood stream, and pineapples and pineapple juice are excellent for the intestinal ailments. Important, then, to select plenty of these foods when you do your marketing for Sunday.

Cucumbers, carrots, lettuce, asparagus, beans, peas and spinach are low priced for the coming week, and are all rich in minerals and vitamins. Good fruit buys, also excellent spring tonics, are pineapples, oranges and rhubarb.

All port prices for the coming week are excellent, with center slices and smoked hams the best buys. Many fish, including porpoise, croakers, pompanos, butterfish, halibut, clams and weakfish, are excellently priced, and are full of nutrition for the family.

Here are three menus suggested by Miss Cora Anthony of the A&P kitchen for Sunday at different price levels:

Low Cost Dinner
Pork and Beef Loaf
Creamed Potatoes
Glazed Carrots
Mixed Spring Salad
Hot Biscuits
Fresh Pineapple
Tea Coffee Milk

Moderate Cost Dinner
Broiled Ham Slices
Candied Sweet Potatoes
Buttered Cauliflower
Tomato Apple and Cucumber Salad
Bread and Butter
Dutch Apple Pie
Coffee Tea Milk

Very Special Dinner
Honeydew Ball Cocktail
Roast Beef
Browned New Potatoes
French Fried Eggplant
Rolls and Butter
Lettuce and Tomato Salad
Vanilla Ice Cream with
Fresh Raspberry Sauce
Tea Coffee Milk

New Copper Discoveries
New discoveries of copper ore 150 miles southeast of Yellowknife, Alberta, flourishing subarctic mining camp, have been reported. They are expected to give added importance to the northern mineral fields, particularly in view of the war demand for basic minerals.

Fish Poisoning
One of the symptoms of fish poisoning in a human being is the reversed sensory impressions received when contacting cold objects, says Collier's. A cool metal railing feels warm to the hand, while ice cream feels so hot to the mouth that the eater instinctively blows upon it.

Towers of Silence
The tower of silence is the name applied to structures built by the Parsees for the disposal of their dead. They are towers about 40 feet high called dakhmas. Below the top of the wall is built a floor of iron grating and upon this the bodies are placed until by exposure to the elements and birds of prey the flesh is entirely removed from the bones and they fall into a pit below.

This is the Month for Parties Galore

Make yours a hit with these luscious Sundae Squares

Almost everyone is celebrating something this month—birthdays, graduations, anniversaries. Serve the tempting dessert pictured above, and your party will stand out in everyone's mind as a grand success.

See the light, moist squares of tender chocolate cake, topped with ice cream and crushed peanut brittle. Festive enough for any occasion, yet so quickly put together you'll want to treat the family often to this luscious dessert.

What could be easier?

You can mix this inexpensive chocolate cake in a jiffy, for smooth, creamy Spry blends so quickly with your other ingredients. This all-vegetable shortening is so pure and bland, too, it lets the chocolate come through, rich and full-flavored. Just follow the easy recipe at the right and you'll be thrilled with the tender, velvety cake you get.

NUT BRITTLE SUNDAE SQUARES

1/2 cup Spry (triple-creamed shortening)	1/2 teaspoon salt	1/2 teaspoon vanilla	1 1/2 cups sugar	2 eggs, unbeaten	3 ounces chocolate, melted
1/2 teaspoon baking powder	1/2 teaspoon soda	1 cup sifted flour	1 cup milk	Vanilla ice cream	Crushed peanut brittle

Blend Spry, salt and vanilla. Add sugar gradually and cream well. Add eggs, singly, beating well after each addition. Add melted chocolate and blend well.

Sift baking powder and soda with flour 3 times. Add flour to creamed mixture, alternately with milk, mixing after each addition until smooth. Bake in 14x2 1/2-inch Spry-greased pan in moderate oven (350°F.) 35 minutes. Cut cake in 2-inch squares, top with a spoonful of vanilla ice cream, and sprinkle with crushed peanut brittle. Serves 12.

(All measurements in recipe are level)

Weatherbeaten Woodwork

A method by which an old weather-beaten effect can be achieved on new knotty pine woodwork has been devised by paint authorities. Paint experts advise the sponging of the surface with a fairly strong solution of ammonia or soda. If a dark finish is desired, make a stain of raw umber thinned with turpentine and add enough varnish to bind it. Prepared varnish stains are available for this purpose if preferred. A thin coat of reduced shellac or dull varnish may then be applied, followed by a coating of wax.

Mountain-Climbers Rest

Years ago Dr. Valentine T. McGillycuddy, Berkeley, Calif., was the first man to climb Harney peak in South Dakota's Black Hills. Now deceased, his ashes will rest on the summit at his own request.

Origin of 'Adirondacks'

The Adirondacks, mountainous district of northern New York, takes its name from the Mohawk word "ratirontaka," meaning "they eat trees."

Benefit Whist For Church

Next Friday evening, June 21, is the date set for the monthly benefit whist for Our Lady of Perpetual Help church.

A large cash prize and several other valuable awards will make the evening a pleasant one for card players. Playing begins at 8:30 p. m. at Masonic hall.

The public is cordially invited to attend. Score cards are nominal in price.

Aerial Sleeve Target

A new type of aerial sleeve target for anti-aircraft firing practice is being developed by army officers. Rubber compartments containing titanium tetrachloride enable gunners to record direct hits immediately. When struck, the new target emits a dense column of smoke.

8:30 p. m.—Public whist, Daughters of Israel, 67 Los Banos.

Hunting for Hero

Boy Scout E. L. Montgomery of Parsons, Kan., saved a man from drowning in the Elk river last July 4, but he forgot to get the fellow's name. It took Scoutmaster Dan Devin weeks to track him down so he could get him to sign a petition recommending a medal for Montgomery. He said he was glad to know who it was that saved him because the day it happened he was too excited to inquire.

Mussel Quarantine Goes Into Effect

All residents of San Mateo county are cautioned to comply with a mussel quarantine order established last week by the State department of public health.

The order prohibits the taking of all mussels from the ocean shore of California extending from the southern boundary of Los Angeles county north to the California-Oregon boundary with the exception of the Bay of San Francisco.

The quarantine will be effective until September 30, 1940.

Sunken Treasure

Still in the wreck of the Fannie & Jennie, Confederate blockade runner lying off the beach at Wrightsville, N. C., is a gold and jeweled sword sent to General Robert E. Lee by British sympathizers.

or a bowl of fresh ripe apricots from Lucca Ravioli company or a cup of fragrant coffee from Colma Pioneer Market.

In fact, we feel so patriotic just thinking about it that we're going to raid the ice-box right now. (It's a new refrigerator we recently bought from Byrne, and it is our favorite piece of furniture).

And then after we have worked up a nice glow of patriotism, we are going to do as the Editor recommends—get an encyclopedia from the Daly City Theatre and read all about Flag Day.

Canadian Sport Fishing

Remarkable progress in the development and extension of sport fishing areas in the national parks of Canada is reported by the department of mines and resources, Ottawa, which administers Canada's system of national parks. As a result of biological surveys and subsequent stocking operations in the various lakes and streams, particularly waters once barren of fish, visiting anglers may now enjoy good fishing in many waters where previously there was little or no fishing available. One of the outstanding achievements has been the successful introduction of the speckled trout from its native haunts in eastern Canada into many of the clear, cold waters of the national parks in the Rockies.

Japanese Butter Export

Although the Japanese eat little butter, Japan is one of the world's leading butter-exporters.

A Rug Service That Really Clicks!

Our Mirza rug cleaning process does the kind of a job you've always wanted—revitalized and beautified floor coverings at REASONABLE prices. Mirza de-moths as it cleans.

We specialize in domestic and oriental rugs. Our plant gives you the finest service west of Chicago.

The Pastry Gun

A pastry gun is an inexpensive little instrument that has been used for years by chefs and pastry cooks but has only recently become popular in the average home.

With it as an ally, the bride can turn her first dessert into an attractive dish, while the experienced matron can make pies and puddings that she never dreamed of before—desserts which have an eye appeal that brings instantaneous compliments from family or guests.

Note the growing appeal in the three desserts pictured, as the pastry gun completes its decorating job. Incidentally, this is an inexpensive milk dessert, so delicious that you should sample it whether you own a pastry gun or not. No eggs are needed. No baking or boiling necessary. Why not try it today?

Mocha Rennet-Custard

1 tablespoon ground coffee
1 1/2 cups milk (not canned or soft curd)
1/2 cup cream
1 teaspoon vanilla
1 pkg. chocolate rennet powder
Add coffee to milk and cream and warm slowly, stirring constantly. Test a drop on inside of wrist frequently. When COMFORTABLY WARM, (120° F.) not hot, remove at once from stove, and strain quickly through muslin or several thicknesses of cheesecloth. Add vanilla and stir in the rennet powder briskly until dissolved—*not over one minute*. Pour at once, while still liquid, into individual dessert glasses. Do not move until firm—about 10 minutes. Chill in ice box. Serve in the same glasses. Just before serving, top with unsweetened whipped cream by using a pastry gun to form an attractive design. For children, omit the coffee.

New Telephones for India

New one-piece telephones are being manufactured in mass production in India to replace the old two-piece office models.

A Slenderizing Salad

IF, WHEN you climb on the scales, the little dial tells you that you have a slight credit in the way of pounds rather than a debit, it is time to start watching what you eat. This doesn't mean you have to starve yourself. In fact, that is just the thing to be avoided for your system needs an adequate amount of proper food to keep the machinery going. Instead, eat foods that keep the calorie count down and yet satisfy appetite and energy demands. Twelve to fifteen hundred calories is the count for the average woman's daily reducing diet.

How to keep within that calorie budget? Fruits, vegetables and lean meats are part of the answer. Jellied salads are another helpful item. When they are made with plain unflavored gelatine, which has almost no calorie count in itself, they offer an excellent way of varying foods that often would become monotonous by themselves from repetition. Too, plain gelatine extends small quantities of foods, giving more to eat and helping to fill up some of those empty crevices in the appetite.

Desserts are often thought to be on the forbidden list but that isn't true. The system needs a certain amount of carbohydrate to carry on its work and so some desserts should be included in a low calorie diet. Here, plain gelatine again comes to the aid of the dieter for there are a wide variety of desserts made with it that are low in calories but delicious to eat.

Complexion Salad

(Serves 6—15 calories per serving)
1 envelope plain unflavored gelatine
1/2 cup cold water
1 cup hot water
1/2 cup cold water
1/2 cup hot water
1/2 cup cold water
1/2 cup hot water
1/2 cup cold water
1/2 cup hot water

1 tablespoon chopped parsley or raw spinach
1/2 cup cabbage, grated fine or shredded
Soften gelatine in cold water. Add salt, hot water. Stir until thoroughly dissolved. Add vinegar, lemon juice and onion juice (extracted by grating onion). Cool and when mixture begins to thicken, fold in remaining ingredients. Turn into one large or individual molds which have been rinsed out in cold water first, and chill. When firm, unmold onto lettuce. Platter may be garnished with bundles of raw carrot straws tied with strips of green pepper.

Grapefruit and Cucumber Salad

(Serves 6—40 calories per serving)

1 envelope plain unflavored gelatine
1 cup hot water
1/2 cup cold water
1/2 cup cold water
1/2 cup cold water
1/2 cup cold water
1/2 cup cold water
1/2 cup cold water
1/2 cup cold water
1/2 cup cold water

Bring sugar and water to a boil. Drain grapefruit. Soften gelatine in one-half cup grapefruit juice (if not enough juice, add water to make difference). Add to hot syrup and stir until dissolved. Add salt and lemon juice. Cool and when mixture begins to thicken, fold in grapefruit and cucumber. Pour into one large or six individual molds which have been rinsed out in cold water first, and chill. When firm, unmold onto lettuce and serve with desired dressing. A drop or two of green vegetable coloring may be added if desired.

Hawaiian Delight

(Serves 6—65 calories per serving)

1 envelope plain unflavored gelatine
1/2 cup cold water
1/2 cup hot water
1/2 cup cold water
1/2 cup cold water
1/2 cup cold water
1/2 cup cold water
1/2 cup cold water
1/2 cup cold water
1/2 cup cold water

Soften gelatine in cold water. Add sugar and hot water and stir until dissolved. Add lemon juice, pineapple and salt. Cool and when mixture begins to thicken, beat until light and frothy with a rotary beater. Fold in softly beaten egg white and beat until thick. Fill into sherbet glasses and garnish with a cherry.

Osage Thwarted

The destructive action of invisible ozone discharges which consume ordinary electrical transmission wires in three seconds has been resisted for three years by wires insulated with korrosal, new synthetic elastic, in tests conducted by B. F. Goodrich company scientists at Akron, Ohio, laboratories.

Cleveland Relief Measure

Cleveland relief authorities have ordered the impounding of license plates of relief clients and members of their families who own automobiles. "If these people want to own and operate cars," City Relief Commissioner Frank G. Jones said, "they will get themselves cut off relief rolls."

Giant Electric Shovel

A giant electric shovel, which will be able to dig through earth as deep as a six-story building, wide as a four-lane highway and deposit it 200 feet away, is under construction at Marion, Ohio. It will be used in strip mining work in Indiana coal fields.

Typewriter Ribbons

Typewriter ribbons are usually made of the best quality nainsook, closely woven of fine, even thread spun from the best long-fiber Sea Island cotton.

Nursery-Room Hint

Pictures for children's rooms can be made washable by covering them with white shellac.

"What Will They Think of Next!"

Mother's gas range does a good cooking job, but lacks the latest-saving and economy features which modern ranges have. As seen with a window, for instance, and a light indicator to show the baking time without opening the door! The heavily-insulated, cold-start oven does not require preheating, and another time-saving feature is the one-piece aluminum top-burner, designed for greatest heating efficiency. This burner comes out at a touch, and fits into the dipper, too.

South Sea Film Tropic Monsoon Of Laughs, Fun

One of the liveliest melanges of joy and hilarity ever to come out of Hollywood arrived in town last night at the Daly City theatre, with a cast headed by Bing Crosby, Dorothy Lamour and Bob Hope, who are ably abetted at their gay high jinx in the tropics by such players as Charles Coburn, Judith Barrett, Anthony Quinn and the renowned Professor, Jerry Colonna. Bob's radio sidekick, The title—"Road to Singapore," hits the keynote of revelry and riot which predominates throughout the film.

The story serves as a warp on which is woven a series of hilarious incidents such as Bing's and Bob's trick of playing "Patty-cake," then socking offensive parties, Jerry Colonna's singing session at the organ, and the time the boys go blackface so that they can get something to eat at a native party. All this naturally involved plenty of singing of five new tunes, and elegant dancing by about two hundred tropical maids. At least, it was two hundred when we lost count.

After disposing of two gorillas hired by one of Hope's old girl friends at "Patty-Cake" and after eluding Bings father—Charles Coburn—and his fiancée—Judith Barrett, the boys turn up in Kai-goon, a South Seas hamlet.

There they lead an idyllic existence until Dorothy Lamour comes along. Things get even more idyllic when she decides to keep house for the boys and both of them fall in love with her.

Meanwhile, however, Professor Colonna, representing the rival steamship line to that owned by Bings father, spots the lads, and lets the old man know where he is. When the irate Papa and Miss

SHORE LOVE

No wonder the captain hates the sea! What sailor wouldn't give up the ship to comb a beach with Dorothy Lamour, as Bob Hope does in the new Paramount comedy with music, "Road to Singapore"! Bob, as the landfaring tar, has nothing to think about except his fellow-seaman and romantic rival, Bing Crosby. "Road to Singapore" marks the first time the three stars of radio and screen have made a picture together. The song-filled, sarong-filled romance is now playing at the Daly City theatre.

Barrett get there, things become complicated romantically, and it takes a lot of funny things to straighten out matters.

Companion feature on the current bill is "Shooting High," with Gene Autry and Jane Withers.

Nickel in Television

Television promises a new outlet for nickel. Vital as the device that translates the electrical impulses into visual patterns, the cathode-ray tube may require up to eight times as much nickel in its construction as does the conventional wireless tube. Associated with it in the receiving set are 35 to 36 radio tubes, as compared with 4 to 16 employed in the metal and its alloys are also used in the transmitting equipment.

Men Surpass Women?

The male of the human species is superior in intelligence to the female, according to Professor William Reuter, Westminster college psychologist. Reuter asserts, on the basis of tests, that it has been proved that woman rarely becomes successful through her own ability. Men have always beaten women in every field, even in their own domain of cooking and dressmaking, according to Reuter. He said the difference in innate intelligence between the sexes may be due to the fact that the masculine brain is larger.

Agricultural Note

Vetches producing from two to three tons of dry plants per acre would add from 150 to 200 pounds of nitrogen to the soil if turned under.

Bow and Arrow Hunter

At 35 yards with bow and arrow—too close to be comfortable—Charles ("Tex") Stone of Dallas has bagged one of the largest mountain lions ever killed in Texas. Stone uses the risky, ancient weapon because an arrow, he says, does less damage to museum specimens and that is what he stalks. Tanned, slender, partly bald and 38 years old, Stone estimates he has killed 400 wild animals in Africa, South America, India, Australia, Mexico and the United States since 1920. All were shot at a range of less than 35 yards. He bagged a male mountain lion that weighed 220 pounds in the Fort Davis mountains.

First Hospital Chair

According to the minutes of the Pennsylvania hospital for September 28, 1788, Thomas Afflick, by many considered the superior of Philadelphia's famous cabinetmaker William Savery, presented the hospital with a curious mahogany chair for the easy removal of sick patients. The chair was valued at 13 pounds.

'Youthful' House Paint

Home owners faced with the problem of making old houses look younger may try coloring them with "youthful" paints. This can be done with almost any type of construction. Side walls of wood, brick, or stone may be painted with paints specially prepared for each surface. Roofs may be covered with one of several different types of factory-colored shingles, and color accents may be provided in window blinds and front doors. A popular new exterior color combination consists of light salmon-colored walls, emerald-green roof, and a flame-colored front door.

Seventeenth Century Employers

Believing that it was necessary to threaten employees with hunger in order to get more work from them, Dutch and English economic literature in the seventeenth century stressed the necessity of lowering wages to the minimal level of subsistence, says a study of The Evolution of the Classical Wage Theory, issued by the Columbia University Press.

AN IDEA FOR TODAY LOIN LAMB CHOPS
WITH ASPARAGUS

Loin Lamb Chops—Asparagus With Hollandaise Sauce

Have lamb chops cut thick. Set regulator for broiling. Place chops on broiler rack so that there is a distance of about three inches between top of chops and source of heat. Allow to brown on one side, season with salt and pepper, turn and finish the cooking on the second side. Chops cut one-inch thick require about twelve minutes for cooking. Serve with asparagus tips topped with Hollandaise sauce.

Hollandaise Sauce

1 cup butter
4 egg yolks
2 tablespoons salt

2 tablespoons lemon
juice
Dash of cayenne

Divide butter into three equal parts. Place one piece in top of double boiler. Add egg yolks and lemon juice. Place over water that is just below the boiling point and stir constantly. When butter is melted, add second piece of butter, and as mixture thickens, add a third piece, stirring constantly while cooking. Cook only until thick. Remove from hot water, add seasonings, and serve at once with hot asparagus tips.
